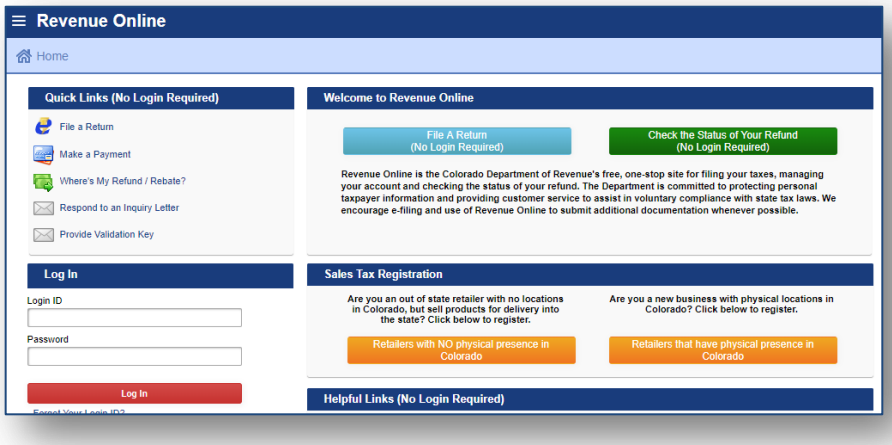
Colorado.gov/RevenueOnline

Revenue Online is one way in which taxpayers and tax professionals can conveniently and securely conduct business with the Colorado Department of Revenue on their computers, laptops, smartphones and tablets. The information available in Revenue Online does not represent the entirety of your information with the Department of Revenue, but the service makes it possible for you to manage your accounts without the need to contact the Department by phone or by email, or go to a service center.

Without logging in you can file select tax returns, submit Power of Attorney documents, verify a Colorado license or certificate, view various report information, file a protest, and access links for a variety of information.



While logged into an account you can renew licenses, file returns, view previously filed returns, update account information, make payments, verify payments made on your account, send and receive secure messages, file protests and much more.
