Colorado Fuel Tax Refund Permit Application

Information and Instructions

Refund Permit

Refund applicants must obtain a permit from the Department of Revenue before or at the time the first refund claim is made. All claims and correspondence must bear the refund permit number. A permit number will be canceled if the holder doesn't file claims for a period of 24 months. Claimants are required to notify this office of any changes in the nature of the business or address. Claimants are also required to notify this office and re-apply for a new permit if there is an ownership, name, DBA or FEIN change. Permits are nontransferable.

Record Keeping

You must maintain records of your fuel purchases/usage for three years.

If have an IFTA account

If you have IFTA in any jurisdiction, you must indicate that you have IFTA and in what Jurisdiction. IFTA account holders are required to report their Colorado IFTA tax paid gallons on a separate claim form or tab on Revenue Online. A copy of the IFTA return is also required.

Refund Claims

All claims must be made within twelve months after the fuel purchase. Only one claim may be filed for a calendar quarter, (Jan.–March, or July–Sept., etc.)

Refunds are not allowed on claims for less than 20 total gallons (except for Political Subdivisions and Government Entities). The best way to file claims is by using our Revenue Online website. A logon and password will be required.

Contact

Contact the Fuel Unit at DOR_FuelTax@state.co.us or send a Web Message from your Revenue Online account.

Instructions

Section I - Select your Ownership Type

Section II - Complete all applicable items, including the email and phone number.

Section III - Check box for all fuel types for which you will be requesting refunds. In gallons box enter your fuel storage capacity, when applicable.

Section IV - Provide an explanation of your business. This explanation must explain the fuel usage of your business.

Section V - Select the category that is most closely matches your exempt fuel use.

Section VI - complete this section as applicable. A complete list of your equipment that uses fuel is required, regardless if a refund will be claimed for the equipment.

Section VII - Must be signed and dated.

Fuel Storage Capacity

Section IV: Description of business and fuel usage.

Provide a description of your business.

Explain in detail how fuel is used in an exempt manner.

Explain the non-exempt use of fuel.

Section IV: Description of business and fuel usage. (Continued)

- 1. Is the fuel being placed in the tank of a vehicle with a current license plate?..... Yes No
- 2. Is there some other activity (such as operating a cement mixer) that uses fuel taken from the same tank as the fuel that propels the vehicle on the road?..... Yes No
In what Jurisdiction?
- 3. Is the vehicle(s) licensed for IFTA?..... Yes No

Note: Fuel used in vehicles licensed and plated for on-road use does not qualify as exempt fuel, unless the fuel is used as a power source for a qualifying exempt purpose other than powering the vehicle on the road. Refunds are not allowed for dyed diesel.

Section V

Check Only One. Check the classification code that best describes your business. If you have multiple uses, check the code where the majority of the fuel is used.
