Power of Attorney (POA)

If you are submitting this claim for a third party, you must include a Power of Attorney (DR 0145).

Reason for Refund Request

The reason for the over-payment should be listed.

Explanations such as "Credit on Account" or "Overpayment" or "See attached" or "Filing error" are not sufficient explanations. A short explanation should be provided even if a letter is included. Additional information and examples have been provided for each tax type.

Mailing Address

The mailing address supplied on the claim for refund form will be used to mail correspondence and a refund check.

Note:

Changes made to the mailing address using the Address Change or Business Closure Form (DR 1102) will not be applied to your refund claim. Make changes to the mailing address for your refund claim by doing one of the following*:

- Send a Web Message (preferred)
- Mail written notification

The message or correspondence should include:

- Subject Line- Address Change for Refund Claim
- Name of Business
- Colorado Account Number
- Date of your original submission
- Tax Type(s)
- Amount of Claim
- Filing Periods

*We reserve the right to use the original mailing address if we cannot verify that changes should take place.

There are two options available to a vendor/retailer who has overpaid sales tax. To determine the appropriate method, read "Method One" and "Method Two".

Method One: (No credit exists on account)

If you overpaid sales tax on a previous retail sales tax return, you may deduct the overpayment amount on the DR 0100 form, line 13 only if there is not an existing credit on the account due to the overpayment or the credit amount does not exceed the taxes due. Credit may be claimed only for tax overpayments for the same site/location and the same state or local jurisdiction. Do not reduce the tax liability below zero. If there is a credit on a previous period or a question as to the calculation of the overpayment of tax, a Claim for Refund (DR 0137) should be filed with an amended return for the applicable period(s) and site(s). You may view your account at www.Colorado.gov/RevenueOnline

Method Two: (Credit exists on account or amended returns are filed creating a credit).

This credit is not applied to subsequent filing periods. Future filings should be filed and paid on time.

A seller's claim for refund is submitted when a vendor overpaid retail sales tax, retailer's use tax, to the Colorado Department of Revenue with a retail sales tax return (DR 0100) or retailer's use tax return (DR 0173) in error.

See "Sellers/Retailers Claim for Refunds" for information on filing your claim.

Sellers/Retailers Claim For Refunds

- **Do not combine sales and use tax refunds on the same claim; file a separate claim for each tax account type. For assistance in determining the breakdown of the tax rate on your invoice, see publication DR 1002.**
- **County Lodging and Local Marketing will have similar requirements to what is outlined.**

REQUIRED DOCUMENTATION:

Note: The documentation requirements and examples listed cover the most frequent claim types. The documentation required will depend on the reason for overpayment. Some claims may require additional information or a combination of the documentation outlined.

Overpayment reasons such as duplicate payment (exact same amount), a vendor's fee paid in error, or a payment data entry error, would not require the documentation outlined.

An example of payment data entry error would be you intended to pay \$5,000.00 and made an EFT payment for \$50,000.00.

1. Invoices or Purchase Orders

If your claim contains fewer than 100 invoices, submit copies of all invoices for review.

If your claim contains 100 or more invoices, submit at least 25% for review which should include the following:

- The majority of the larger dollar amounts requested.
- Invoices for each customer submitted in the claim.
- Select invoices from each filing period requested in the claim.
- If you are claiming tax paid by third-party
 - If you are claiming tax paid by third-party vacation Rental Company, provide the reservation invoices receipts along with the third parties sales tax account number.

2. Proof of Refund to Customer

Proof tax was refunded to Customer such as a copy of cancelled check or credit memo. If your claim contains 100 or more invoices, see the Invoices or Purchase Orders section for the number of copies required.

3. Proof of Exemption

This could include a copy of the customer's resale license or exemption certificate. *Please see "Examples of Documentation by Refund Reason".*

4. Support for Filing Error

This could include sales summaries or reports. *Please see "Examples of documentation by Refund Reason".*

5. Spreadsheet

You must attach supporting spreadsheet/schedule to your claim for the original returns being amended that shows all invoices on which sales or use tax was paid with the following columns: (Highlight the invoices on the supporting spreadsheet/schedule(s) and their related amounts that are included in the refund claim.)

- Store/vendor or customer's name;
- Address including street, city, and state;
- Date of invoice or purchase;
- Invoice number (attach copies of invoices);
- Amount of the sale before taxes;
- State sales/use tax paid, county sales/use tax paid, city sales/use tax paid, special district sales/use tax paid, etc. (separate column for each tax);
- Amount of refund being claimed;
- Indication of whether a copy of this invoice is enclosed;
- A brief description of the item or service purchased;
- Explanation of how the item or service is used;
- A brief description of why the tax is not due (attach proof that the money was refunded or credited to your customer)

If you are applying for a refund from multiple periods and multiple site locations, the invoices and related information must be separated by period and location. Each period's data must be totaled separately.

Note: To reduce errors and for faster processing, electronic spreadsheets are preferred (CD or USB).

6. Amended Returns

You must submit amended returns for each applicable period and include separate returns for each site (location) involved in the refund claim. The department requires that the refund request match the sites (branches) that are set up on the account otherwise the refund request cannot be processed. To verify your sites, go to www.Colorado.gov/RevenueOnline, and select "Find Sales and Use Tax Rates" under the Sales and Use Tax category then select "View Business Location Rates". You will be able to view all open sites. Any closed sites will not show in the search. The site (where the tax was remitted) must correspond to the appropriate site in the refund request.

Sellers/Retailers Claim For Refunds (Continued)

If you amend your return(s) electronically at www.Colorado.gov/RevenueOnline: you are required to verify that your amended returns posted correctly prior to submitting your Claim for Refund (DR 0137). Be sure that you have contacted your software provider prior to filing an amended XML return so that your XML amended indicator will be used. For Excel Spreadsheet filers, you will add a capital X in column O Row 3 in the Header. If the XML amended indicator is not used or you do not mark your Excel Spreadsheet as indicated above, your return will not be amended.

If you are filing an amended paper return: you are required to check the amended return box. A separate amended return must be filed for each period and site that is appropriate to the refund claim. The amended return must show all tax columns as corrected, not merely the difference(s). The amended return will replace the original return in its entirety. If applicable, be sure to use the correct vendor fee for the period(s) and site(s) you are amending.

11. Refund Reason Example Five: Overpayment of bill.
 - If known, reference the applicable Statement of Account (SOA) or notice you remitted payment on.

Wage Withholding Tax Refunds

1. Overpayment of Current Year

The Department issues refunds of wage withholding only once a year. Refund requests made prior to the annual reconciliation will be denied unless an extenuating circumstance is documented.

Examples of an extenuating circumstance would include:

- Federal withholding paid to the State of Colorado in error.
- A significant data entry error that will not be used by the end of the year or causes a hardship on the business. For example, you intended to make a payment of \$5,000.00 and made one for \$50,000.00.

If you overpaid wage withholding taxes for any period in the current calendar year, take a credit on a subsequent month's Withholding Tax Return (DR 1094). The credit may be deducted from an EFT payment, a return filed on Revenue Online, or a subsequent paper form DR 1094. To claim the credit, remit the difference owed on your next filing. For example, you overpaid withholding by \$200.00 on your March filing. The amount of withholding owed for April is \$500.00. File a return and remit payment for \$300.00 or if paying by EFT remit a payment for \$300.00.

If you are unable to claim the credit on a subsequent DR 1094 within the calendar year of the overpayment, you may request a refund by filing the Annual Transmittal of State W-2 Forms (DR 1093) on or before **January 31**. The DR 1093 will indicate the total amount of taxes withheld in the prior year on employees' W-2s and the total amount of withholding tax payments paid to the Department. If the amount withheld and the amount paid results in a refund, file the form DR 1093 and use line 3B.

2. Overpayment for previous calendar years

To apply for a refund from a previous calendar year, the following is required:

- A Claim for Refund (DR 0137) indicating the reason for the request.
- An original or amended DR 1093 for the year the refund is being requested.
- Copies of the employees' W-2Cs with complete information showing the change in the withholding amount.
- Documentation showing how the refund amount was calculated.

3. 1099 and Gaming Withholding

The guidance for 1099 and Gaming Withholding is similar to what is outlined above.

Forms for 1099

- 1099 Income Withholding Tax Return (DR 1107).
- Annual Transmittal of State 1099 Forms (DR 1106).
- 1099s.

Forms for Gaming Withholding

REQUIRED DOCUMENTATION:

Note: The documentation requirements listed covers the most frequent claim types. The documentation required will depend on the reason for overpayment. Some claims may require additional information.

You are required to check the amended return box. A separate amended return must be filed for each period and site that is appropriate to the refund claim. The amended return must show all tax columns as corrected, not merely the difference(s). The amended return will replace the original return in its entirety.

3. Spreadsheet
