SALT Parity Election 2022

What Should Partnerships and S Corporations Do to Prepare?

For tax years beginning on or after January 1, 2018 but before January 1, 2022, Partnerships and S Corporations will have the option to submit a Retroactive SALT Parity Act Composite Reporting Return: an amended composite tax return filed on behalf of the partnership or S corporation and all partners or shareholders.

**About the Retroactive SALT Parity Act Composite Reporting Return**

- The amendment allows you to make retroactive filings for SALT Parity Elections and S Corporations who have already filed their original Colorado Partnership and S Corporation and Composite Nonresident source tax returns (DR 0082) for any or all of the tax years 2018-2021.
- This can only be filed through Intertax (IDR). **His paper form is available.** If you do not currently have an IDR account, you will need to create an account prior to filing your amended returns.
- The Retroactive SALT Parity Composite Reporting Return will be available through IDR from September 1, 2023 to June 30, 2024. The submission must be made as a certified filing in the format of a master prior disposition return for tax years 2018-2021. The election may be made for one or more tax years, but the return must include all tax years for which the election is made.
