

2nd Quarter 2023 IFTA Newsletter

Tax Rate Change

The price of fuel in Colorado includes two fees in addition to the fuel tax.

- The Bridge and Tunnel Impact fee and Road Usage Fees will increase on July 1, to \$0.03 per gallon . For rate information go to [Tax.Colorado.gov/IFTA-forms](https://tax.colorado.gov/IFTA-forms)
- You do not need to do anything; these fees are included in the tax rate and are programmed into your Revenue Online return automatically.

Decals for New Vehicles

Adding vehicles to your IRP fleet does not mean you will automatically be issued IFTA decals. Once you are issued an IRP cab card, you must request IFTA decals by sending a web message or email with a copy of the registration. Mail is sent out once a week. If you need overnight delivery, provide a pre-printed FedEx label with a physical location (not a P.O. box).

 - The Department highly recommends using Revenue Online; tax rates are updated automatically, it performs calculations for you, and eliminates the possibility of returns getting lost.

Common 2Q2023 FAQs:

If you have a lease agreement which states another entity is responsible for reporting and paying IFTA fuel taxes, complete the IFTA Lease Agreement Certificate ([DR 7511](#)). The reporting entity (lessee) is responsible for acquiring decals from the Department.

A licensed IFTA carrier (lessor) who enters into a lease agreement during the year must send a [written request for closure of their IFTA account](#) and return their license and decals to end their reporting obligation. The carrier's account will be closed at the end of the quarter in which the closure request, license and decals are received by the Department. If the lease agreement is terminated, the carrier (lessor) should return the license and decals to the reporting entity (lessee).
